A3 Template

This is the bleed area. Make sure artwork extends into this area to avoid white edges once your artwork is trimmed.

Your artwork will be trimmed to the edge of this area.

Keep all important content, such as text, contact details and icons inside this area do they are not trimmed off.

Exporting your file

Before exporting your file, ensure that all imagery is set to 300dpi, colours are configured as CMYK, and all fonts are outlined or embedded. Double check your spelling and grammar, and make sure everything is aligned as expected.
Ashley House Printing company cannot be held responsible for any artwork errors.

Once you're happy with your artwork, save the file as an 'Adobe PDF (Print)' and click save. Next select 'High Quality Print' or 'Press Quality' as the preset. Then go to the 'Marks and Bleed' section, make sure nothing is checked in the 'Marks' area.

You're now ready to save your artwork as a PDF.
